

The largest learning event in history

During Computer Science Education Week,
December 7-13, 2015

The Hour
of Code
is coming,
again!

WHAT IS CODING?

December 1st is your chance to find out. With a short investment of your time you can learn to be a CODE BUDDY in a SBISD school or use the knowledge to teach it to your children or grandchildren.

There will be a special HOUR OF CODE training / Q&A session Tuesday, Dec. 1st at the Harris County Spring Branch/Memorial Library at 930 Corbindale during the hours of **3:30 – 6:30**. Parents, students and community members may take advantage of this opportunity. Both unplugged activities and online self-guided tutorials will be available.

Once a student can see what they create, right before their eyes, they're empowered to keep going. The basics help nurture creativity and problem solving skills, and prepare them for any future career. Every 21st Century student should have the opportunity to take part in creating technology that's changing our world.

To learn more about Hour of Code see csedweek.org or contact Bryan.Kratish@hcpl.net. Sign up at volunteer.springbranchisd.com and contact Abigail.Walker@springbranchisd.com to volunteer.

WHAT IS CODING?

Tuesday, Dec. 1st 3:30 – 6:30

Harris County SBM Library - 930 Corbindale

Sponsored by AAUW-WHC Women in STEM - aauwwsf.edublogs.org
